(surname, name and patronymic, signature )

Head of Department of Pharmaceutical and Biological Chemistry, Pharmacognosy

O. Konovalova

---

(surname, name and patronymic, signature )

**Report**  
**about the practical training in specialization**  
**"Chemico-toxicological analysis"**  
**5th year student**

---

(full First and Last name)

Place of practical training: Department of Pharmaceutical and Biological Chemistry, Pharmacognosy  
(name of establishment)

Terms of the practical training: from \_\_\_\_\_ till \_\_\_\_\_ 202\_

The report reflects the full range of acquired knowledge and skills during practical training. The report should contain a general description of the establishment, provide the work conditions of a student, reflect the main content of the practice (the number of tests for certain types of work, the list of used methods of analysis, conclusions about the curriculum implementation). It is also necessary to describe the difficulties that have arisen in the work, the pros and cons of organizing of the practical training, participation in social activities of the enterprise, proposals to improve the organization of practical training.

The report is written by the student personally, the head of enterprise does not certify the report.
