

# **THANK YOU, VERY MUCH!**

**Good morning Sir,**

**Let me take this opportunity to thank my Kyiv Medical University for every good experience that was provided to me.**

**For the last two and half years, I studied in the esteemed University. Our Honourable president, Reverend Rector, Respected Dean, Dean office, respected teachers, non-teaching staff, International faculty members, each and every other member in KMU, including my classmates, immeasurably supported and inspired me from the very first class in 2021.**

**Therefore, I thank each and every member for supporting me throughout my time in the University.**

**In fact, my lovely teachers were very supportive and caring beyond words. Their accommodating methods helped me gain good scores which is shining on my transcript- bless you all!**

**Besides, the readily responding staff in International faculty have been a source of relief at all times. My message of varying queries were instantly replied with appropriate answers, thereby relieving me from my concerns.**

**Also, special thanks for preparing, updating and issuing my transcript. Thank Jesus, on 12/09/2023, my friend delivered it to me in India!**

**Furthermore, I have no words to thank you for interacting with my uncle, Mr. Tomy Stephen from Britain, throughout these years. Only he suggested to me and my brothers to join in the Kyiv Medical University because he likes you.**

and

No wonder, I came to KMU through my brothers, (Santo Mathew Stephen Steffin Tomy Thannikkal 2016-2022 batch) whose high impressions about our KMU attracted me to like KMU.

And now, I have taken a transfer from KMU not because I don't like it here, but because of my concerns for my future.

During my stay in Kyiv, I extraordinarily enjoyed the love and care of Ukrainians. When I had Covid19, you took personal responsibility and the hospital staff endearingly looked after me. Even during the wartime, every Ukrainian, gave priority to our life and took initiative to let us pass the border. Thank you from the bottom of my heart ❤️

Believe me, though I am taking transfer, I will continue my steadfast support for the cause of Ukraine and Kyiv Medical university. Jesus bless Ukraine.

Once again, I thank each and every member for their care and concern, in addition to all the valuable memories!

On behalf of my brothers, Santo Mathew and Steffin Tomy, my uncle, Tomy Stephen and my lovely parents, I thank you so much.

Remembering always and with kind regards,

Yours's sincerely,

Theresa Mathew
