Survey of Medical Faculty Students on the OSCE (Objective Structured Clinical Examination)

Dear Students,

We kindly ask you to answer the questions regarding the **OSCE (Objective Structured Clinical Examination)** at the **Private Higher Educational Institution Kyiv Medical University**. This examination, together with **KROK-2**, is one of the most objective criteria for assessing the level of professional training of future physicians.

Your opinion is extremely important to us.

The collected information will help improve educational programs, enhance the system of quality assurance in education, and strengthen the principles of academic integrity.

The survey is **anonymous**, and it is not possible to track the email addresses from which responses are submitted. All responses will be used only in an aggregated form.

Thank you sincerely for your time and cooperation.

Was the information about the OSCE station passports available to you in electronic resources (educational portal, department websites, Google Classroom)?

Yes / No

- Department of Internal and Occupational Diseases
- Department of Surgical Diseases No. 1
- Department of Pediatrics
- Department of Obstetrics and Gynecology

Were training sessions based on OSCE clinical scenarios conducted by the graduating departments during your studies at the respective departments?

(1 – not conducted at all, 5 – conducted regularly)

- Department of Internal and Occupational Diseases
- Department of Surgical Diseases No. 1
- Department of Pediatrics

- Department of Obstetrics and Gynecology
-
