

КИЇВСЬКИЙ МЕДИЧНИЙ УНІВЕРСИТЕТ
KYIV MEDICAL UNIVERSITY
EST. 1992

Survey of First-Year Students of Kyiv Medical University University Admission Process

Dear students,

We invite you to take part in this survey aimed at understanding your impressions of the **admission process and your adaptation to studying at the University**.

Your responses will help us better understand the needs of applicants and improve the educational process, living conditions, and student life. The survey is **anonymous**, so please answer honestly. Completing the questionnaire will take approximately **30–40 minutes**.

Why this is important: We truly listen to your feedback in order to provide better services and improve our work for future generations of applicants. Your feedback influences university decisions — from communication and events to infrastructure and the organization of the educational process. Therefore, we kindly ask you to approach this survey responsibly and thoughtfully.

Good news!

After completing this (anonymous) form, you will be offered an additional short questionnaire via a separate link. Among everyone who completes **both forms**, we will randomly draw **10 prizes**:

- **5 books** by the well-known physician, scientist, and professor **Olha Vadymivna Bohomolets**;
- **5 smart wrist watches** that help monitor heart rate and basic physiological indicators.

Please note: participation in the prize draw is **voluntary** and takes place only through the separate second questionnaire, where you may provide contact information solely for notifying the winners. This information will **not be linked** to your responses in this anonymous form.

We sincerely thank you for your activity and your interest in the development of the **KMU university community**.

I. General Information

1. What is your field of study?

- Medicine
- Dentistry
- Pharmacy
- Psychology
- Management
- Nursing

2. My mode of study:

- Full-time
- Part-time

3. Indicate the level of education on the basis of which you were admitted to KMU:

- Complete secondary education (based on the National Multisubject Test – NMT)
